

*Protecting and restoring Beaver Lake,
our regional drinking water source!*

Karst Workshop

Learn about karst geology found in the Beaver Lake watershed

FREE TO ATTEND | FOOD & REFRESHMENTS PROVIDED

When:

October 24th

5:00 - 6:30 pm

Location:

**Keith Ham Pavilion,
Withrow Springs State Park,
33424 AR-23,
Huntsville, AR 72740**

*For more information
about the Alliance, visit
beaverwatershedalliance.org*

With Special Guest Speakers:

Adam Leslie | Arkansas State Parks

Jonathan Baxter | U.S. Fish & Wildlife Service

Jamie Lockhart | AR Archeological Survey

Topics Include:

- What are karst landscapes & why are they important?
- Ozark caves: early dwellings & the preservation of ancient artifacts.
- How is water underground related to above ground water systems? (and how to protect both!)
- Cave creatures: what lives in caves & what is their role in our local landscapes?
